Medieval Astrology Profile for Wayne Lo

File History: Initial 2016-06-12

Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Wayne Lo**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources* & *Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul.*"* Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

Wayne Lo (November 14, 1974 - present)

To avoid the tendency of true crime stories to devolve into porno-violence, I present a timeline of key life events rather than a descriptive biography. For details on the subject, see the reference listed.

Note: This rectification is based on very few events and is considered in the speculative category.

<u>Stage I. Determine the Ascendant sign</u>

Firdaria

Choose Diurnal series which maps the major Venus Firdaria period during high school years to Lo's musical studies. While Venus/Scorpio is in the sign of her detriment, this placement is not nearly as bad as Saturn/Cancer-rx which would rule the major Saturn Firdaria period were the chart nocturnal. In the diurnal series, one also sees the killings occur just one month after the changeover from Venus to Mercury as the main period Firdaria ruler.

Moon's Configuration

For a diurnal figure, there are three possible configurations of the Moon:

(Sunrise) 6:15 AM to 8:53 AM. Moon separates from Saturn and applies to the Sun.
8:53 AM to 12:33 PM. Moon separates from the Sun and applies to Venus.
12:33 PM to 5:10 PM (Sunset). Moon separates from Venus and is VOC.

© Copyright 2016. Regulus Astrology LLC. All Rights Reserved.

One of the reasons why I rate this horoscope as speculative, even for me, is that judging the Moon's configuration becomes more speculative the less events are available, especially for young people who have not lived out their lifespan. At this point in Lo's life it is fair to say that Venus is a strong theme for him. Not only was he a violinist as a teenager, but subsequent to the spree shooting Lo began to create artwork which is for available for purchase through online website marketing. A recent check of the site; however, shows that few works have sold. This is one indication consistent with the Moon's separation from Venus and VOC status otherwise one might assume that his artworks find homes of one form or another. But the creation of artworks for which there is little market is consistent with the Moon's separation from Venus and VOC status. But however this makes sense, this particular life theme may not be consistent were we to have the entire picture of Lo's life at hand. This is speculation.

Conclusion: Birth time range is 12:33 PM to 5:10 PM. Ascendant range is 23AQ – 21TA

Physiognomy

Wayne Lo is an example of the limits of physiognomy for young adults who may not have achieved mature facial features due to age. The photo taken the day after the crime shows an outline of the head which is ovate, a match to a cardinal sign, probably Capricorn since the shape is similar to a football. However, another 8 years pass and his 12-Apr-2000 NYT photo shows the soft rounded face of Taurus which is the trial choice I have made for Lo. The second photo is copyrighted and I do not reproduce it here. But it is so strikingly different than the perp walk photo that it is a reminder that we need to be careful about first impressions received from a photograph, however relevant. In the case of Caril Ann Fugate, one of the reasons she was convicted was for the press photo of her jocular smiling face seen sitting next to a grinning Charles Starkweather following the Starkweather murder spree.

Conclusion: Ascendant sign is Taurus

Configuration of the Chart

The trial Taurus rising horoscope places the Scorpio stellium in the 7th which includes the 1st house lord Venus, in sign of detriment, in the 7th. This indicates issues with self-esteem which is consistent with his classification as a social outcast at school prior to the shooting.

The other configuration which is consistent with life affairs is his strict father which is most likely signified by Saturn/Cancer/rx placed near the 4th cusp if the Ascendant is early Taurus.

Profections

A new finding for horoscopes with prominent stelliums is this: If the year the profected Ascendant moves through a multi-planet stellium and there are no major life events found in the timeline, the rectification is in doubt. The speculative rectification for the Columbine spree shooter Eric Harris, another horoscope with a stellium in the 7th house, is anchored by a similar profection. For Lo, the Profected Ascendant moves through the Scorpio stellium around the time of the shooting. These profections are presented for the final rectified Ascendant of 10TA47.

Prof ASC = Mercury. 13-Aug-1992
Prof ASC = Mars. 22-Nov-1992. <<Day of shooting is 14-Dec-1992>>
Prof ASC = Sun. 24-Mar-1993

Victor of the Chart:

Ibn Ezra's method favors Venus or Mars. Porphyry's Stage I criteria adds Jupiter. The presence of Mars/Scorpio, just leaving combustion, angular in the 7th, and ruler of the Scorpio stellium overwhelms the entire horoscope. Mars is the victor.
