Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Minnie Hauk**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources & Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul." Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

Minnie Hauk

Minnie Hauk (November 16, 1851 to February 6, 1929)

Amalia Mignon Hauck "Minnie" Hauk was an American operatic soprano.

She was born in New York City on November 16, 1851, the only child of Francis Hauck, a German emigrant, and his American wife. Soon after Minnie's birth the Haucks moved to Providence, Rhode Island, and then to Sumner, Kansas, in 1857. It was later wrongly rumoured that Hauk was the daughter of the financier Leonard Jerome, who was a devotee of the opera.

In 1865, Hauk began vocal studies with Achille Errani, who secured her a spot with the Max Maretzek Italian Opera Company. At age fourteen she made her public debut as opera singer in Brooklyn as Amina in *La sonnambula*, and a month later, in November 1866, her New York City debut as Prascovia in *L'étoile du nord*. In the American premiere of Gounod's *Roméo et Juliette* (November 15, 1867) she sang Juliette.

Hauk sang for the first time in Europe at Covent Garden, London, on 26 October 1868, and debuted in Paris in 1869. The soprano then appeared in Italian and German opera at the Grand Opera in Vienna (1870–1874) and other venues throughout Europe. Hauk interpreted the role Carmen, the previously unsuccessful opera by Georges Bizet, in a new intensive way for the first time on January 2, 1878 in Brussels. The immediate success brought the opera to longlasting fame. She then played the role at the opera's British and American premieres in 1878. Hauk performed Manon at its American premiere in 1885. Her voice became a mezzo-soprano of great strength and depth. Hauk stopped to sing intensive opera tours by end of 1893. Hauk's enormous repertory included approximately one hundred roles, and she sang Carmen in four languages.

In 1878 she married Ernst von Hesse-Wartegg, the Austrian-American writer and traveler. Much of Hauk's fortune was lost during World War I. By 1920 she was thought to be impoverished and was nearly blind. Hauk died at her home near Lucerne, Switzerland, in 1929.

Stage I. Determine the Ascendant sign

Firdaria

For the diurnal Firdaria sequence, the span of her major Venus Firdaria period takes Minnie Hauk from voice lessons in New Orleans to her Covent Garden premiere in London. She is an excellent example of an artist whose early career development is tied to the Major Venus Firdaria period during teenage years.

ZRS

Assigning Lot of Spirit to Aries means L1 changes to Taurus on 29-Aug-1866, six weeks before her debut at the Brooklyn Academy of Music. Her operatic career occurs during L1 Taurus and L1 Gemini. Gemini is a favorable sign given 10th from Gemini is Pisces, in turn ruled by Jupiter which is powerfully placed on the 10th cusp as an aid in career. If the Lot of Spirit is Aries, the Ascendant degree range is 3CP – 4AQ, e.g., most of Capricorn.

From a mundane perspective, note the Ascendant distribution for the Regulus USA National Horoscope is Venus/Taurus from 9-Sep-1866 to 24-Dec-1871. This starts only 11 days after Minnie Hauk's natal ZRS L1 moves to Taurus on 29-Aug-1866. The unusual overlap of both time lord techniques is responsible for Minnie Hauk's rise to fame as America's first Opera diva and superstar.

Moon's Configuration

Time	Moon's Degree	Sect	Configuration
12:00 AM	20LE53	N	Moon separates from Mars and applies to the Sun
4:25 AM	23LE27	N	Moon separates from the Sun and applies to Mercury
6:52 AM	24LE52	D	Moon separates from the Sun and applies to Mercury
1:53 PM	28LE58	D	Moon separates from Mercury and applies to Saturn
2:05 PM	29LE05	D	Moon separates from Saturn and is VOC
3:39 PM	00VI00	D	Moon applies to Venus
4:36 PM	00VI34	N	Moon applies to Venus
12:00 AM	4VI54	N	Moon applies to Venus

For an opera diva, the choice of Moon in Leo over Moon in Virgo is an easy one to make. This eliminates all times after 3:39 PM including all nocturnal evening hours. Of the other configurations, Mars/Sun (violence), Sun/Mercury (speech/communication), Mercury/Saturn (serious thinking/speech problems), Saturn/VOC; only the Moon's separation from the Sun and application to Mercury is a delineation fit for an opera career based on audience communication.

These observations are consistent with evidence from Firdaria which favors a diurnal birth. Based on the Moon's configuration, the birth time range is 6:52 AM to 1:53 PM. This range includes the 3CP = 4AQ Ascendant degree range identified by ZRS.

Physiognomy

So far in my research whenever the South Node is placed in the rising sign, the sign ruler is disqualified as a physiognomy significator; instead use the Descendant as the physiognomy significator which by definition will house the North Node. In this case Cancer ruled by the Moon/Leo are the two main physiognomy significators. Photographic evidence from Hauk's musical era (1861 – 1893) was often retouched and can only be given so much weight. Nevertheless the shape of her face is full bodied, skin is smooth, with both Cancer and Leo reasonable delineation matches. Since in Stage I rectification we are only interested in determining the rising sign, this evidence does suggest that Cancer is on the 7th cusp making the rising sign Capricorn. Based on the above evidence, I suggest that physiognomy rules out the 4 degrees of Aquarius as a rising sign because sign and decan lord Saturn/Aries-rx does not appear a delineation match to the shape of her physical body or face.

Single point: assigns 1 point for each essential dignity

Early medieval: sign 5, exaltation 4, bound 3, primary triplicity lord 2, decan 1. Used by al-Kindī and Māshā'allāh.

Late medieval: sign 4, exaltation 4, triplicity lords (all) 3, bound 2, decan 1. Used by Schoener; taught by Zoller.

Fixed Stars from Janus 4.3 software. Criteria: conjunction within 2 degrees longitude.

Additional

Moon's Configuration: Moon separates from the Sun and applies to Mercury, diurnal, preventional.

Moon-Mercury whole sign aspect? Yes. Moon and Mercury are in square aspect.

Do scoring methods agree? Sign-based (Jupiter-Mars); Bound-based (Saturn-Jupiter).

Longevity: 77y 2m 21d

Releaser and kadukhudhāh. Figure is diurnal and Sun/Scorpio/11th qualifies as the releaser. Bound Lord Jupiter conjunct the MC within a degree qualifies as kadukhudhah. Jupiter is received by Mars (sign) and is in generosity with Venus (bound). Jupiter grants 79 major years; Mars deducts 15 by square aspect for a net of 64 years or 1915. She lived just shy of Jupiter's major years but starting with WWI in 1914 her husband had substantial financial losses and died in 1918. From 1914, or age 64, to her death, Minnie Hauk's life was marked by poverty and isolation.

Victor of the Chart: Venus/Sagittarius

Venus and Jupiter tie for victor in Porphyry's Stage I criteria by bound placement. There can be no doubt that as a singer, Minnie Hauk's victor is Venus. Venus is placed in the fire sign of Sagittarius which is consistent with her signature role Carmen's profession as a cigarette girl. Placement in the 12th house by whole signs indicates imprisonment; for the character Carmen, her life on the run with her bandit friends after the arrest of her lover Don José.

Manners: Sign-based (Jupiter-Mars); Bound-based (Saturn-Jupiter).
