*Introduction to delineation of appearance and character in natal astrology.* The following document is a hand-written analysis of **Fulton J. Sheen**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1<sup>st</sup> house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources & Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

*Victor of the Chart.* Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12<sup>th</sup> century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

*Manners.* Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul." Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

**Fulton J. Sheen**

## **Fulton J. Sheen (May 8, 1895 – December 9, 1979)**

Fulton John Sheen (born Peter John Sheen) was an American bishop (later archbishop) of the Catholic Church known for his preaching and especially his work on television and radio. Ordained a priest of the Diocese of Peoria in 1919, Sheen quickly became a renowned theologian, earning the Cardinal Mercier Prize for International Philosophy in 1923. He went on to teach theology and philosophy at the Catholic University of America as well as acting as a parish priest before being appointed Auxiliary Bishop of the Archdiocese of New York in 1951. He held this position until 1966, when he was made the Bishop of Rochester. He resigned in 1969 as his 75th birthday approached, and was made the Archbishop of the titular see of Newport, Wales.

For 20 years as Father Sheen, later Monsignor, he hosted the night-time radio program *The Catholic Hour* on NBC (1930–1950) before moving to television and presenting *Life Is Worth Living* (1952–1957). Sheen's final presenting role was on the syndicated *The Fulton Sheen Program* (1961–1968) with a format very similar to that of the earlier *Life is Worth Living* show. For this work, Sheen twice won an Emmy Award for Most Outstanding Television Personality, and was featured on the cover of *Time* Magazine. Starting in 2009, his shows were being re-broadcast on the EWTN and the Trinity Broadcasting Network's Church Channel cable networks. Due to his contribution to televised preaching, Sheen is often referred to as one of the first televangelists.

The cause for his canonization was officially opened in 2002. In June 2012, Pope Benedict XVI officially recognized a decree from the Congregation for the Causes of Saints stating that he lived a life of "heroic virtues" – a major step towards beatification – and he is now referred to as "Venerable." On July 5, 2019, Pope Francis approved a miracle that occurred through the intercession of Archbishop Sheen, clearing the way for his beatification. Sheen was scheduled to be beatified in Peoria on December 21, 2019, but the beatification was postponed after the current Bishop of Rochester expressed concern that Sheen's handling of a 1963 sexual misconduct case might be cited unfavorably in a forthcoming statewide report from the New York Attorney General.

### Stage I. Determine the Ascendant sign

### *Firdaria*

The clean delineation match of Jupiter as major Firdaria ruler from 8-May-1946 to 8-May-1958 is Sheen's peak career as a television priest. His supervisor Cardinal Spellman pushes him out under the final Jupiter-Saturn subperiod. Both major life affairs are clear evidence in favor of the Diurnal Firdaria ruler sequence. Compared to ZRS, for Sheen, Firdaria proves a much better method for defining peak periods.

## ZRS

ZRS at L1 shifts; however, does time major life chapters with:

L1 GE 6-Nov-1929, Start of radio broadcast "The Catholic Hour" following year;

L1 GE L2 SA (LB) 7-Mar-1947, Attacked Freudians and Marxists as destructive systems;

L1 CA 24-Jul-1949, Director of Society for the Propagation of the Faith, 1-Nov-1950;

L1 CA L2 CP (LB) 22-Nov-1966, Imbroglio over gift of St. Bridget's Church to HUD triggers parishioner revolt and resignation as Bishop of Rochester once L2 moves to AQ.

### *Moon's Degree*

For a man with no wife or daughters there are fewer events for testing afflictions to the Moon such as transits of Saturn and Mars in hard aspect. While not conclusive, the following transits of Saturn to the superior square of the Moon are consistent with the proposed rectified Moon position:

Date	Transit	Event
29-Sep-1976	trSat sq Moon	27-Sep-1976, Spoke at St. Bernard's Seminary for Dedication of Sheen archives. (Saturn in the 4 <sup>th</sup> house denotes storage of things in the ground, such as archives; though the relevance of Saturn in a water sign can be disputed).
27-Jan-1977	trSat-rx sq Moon	Death of brother Thomas Newton Sheen, Feb-1977. Saturn rules the 3 <sup>rd</sup> of siblings by exaltation and positioned retrograde in the 4 <sup>th</sup> , can act like it is Saturn/Taurus placed in the 10 <sup>th</sup> which is death of siblings.
19-Jun-1977	trSat sq Moon	Open heart surgery and pace maker installation, 15-Jul-1977. The position of transiting Saturn in the Ascendant making the superior square to nMoon is consistent with health problems.

### *Moon's Configuration*

Time	Moon's Degree	Sect	Configuration
12:00 AM	7SC45	N	Moon separates from Jupiter and applies to Mars
3:25 AM	9SC44	N	Moon separates from Mars and applies to the Sun
4:51 AM	10SC33	D	Moon separates from Mars and applies to the Sun
5:58 PM	18SC05	D	Moon separates from the Sun and applies to Mercury
6:54 PM	18SC37	N	Moon separates from the Sun and applies to Mercury
12:00 AM	21SC31	N	Moon separates from the Sun and applies to Mercury

I did not use the Moon's Configuration for Sheen's rectification but include this list of possible configurations for completeness. If the diurnal Firdaria sequence is correct, the either the Moon separates from Mars and applies to the Sun or the Moon separates from the Sun and applies to Mercury. The former emphasizes the negative role of Mars-signified Cardinal Spellman on Sheen's professional career while the latter emphasizes his career as a media personality. It is possible to advance arguments for either configuration though the rectification assigns the greater role to Spellman as a career disruptor as a major life theme.

## Stage II. Determine the Ascendant's range within 1-4 degrees

### *Notable Transit*

### KEY – Mubtazz Scoring

Single point: assigns 1 point for each essential dignity

Early medieval: sign 5, exaltation 4, bound 3, primary triplicity lord 2, decan 1. Used by al-Kindī and Māshā'allāh.

Late medieval: sign 4, exaltation 4, triplicity lords (all) 3, bound 2, decan 1. Used by Schoener; taught by Zoller.

Fixed Stars from Janus 4.3 software. Criteria: conjunction within 2 degrees longitude.

### Additional

Moon's Configuration: Moon separates from Mars and applies to the Sun, diurnal, conjunctive.

Moon-Mercury whole sign aspect? Yes. Moon and Mercury are in opposition aspect.

Do scoring methods agree? Mars-Venus (sign-based); Saturn-Mercury (bound-based).

## Model Summary

Ascendant decan: Sagittarius

Ascendant decan ruler: Jupiter/Cancer

Planets/Nodes placed in the Ascendant sign or decan: n.a.

Longevity: 84y 7m 2d

*Releaser and kadukhudhāh*. Figure is diurnal and Sun/Taurus/10<sup>th</sup> qualifies as the releaser. Bound lord Jupiter/Cancer aspects by sextile and is the kadukhudhah. Saturn aspects Jupiter by trine but does not receive Saturn so cannot deduct years. Jupiter grants 79 major years. Mars is co-present with Jupiter and either deducts 15 minor years or 1/3 its minor years (5yrs) because the mutual reception between Mars/Cancer and Moon/Scorpio rescues Mars from its ability to harm Jupiter. If the former, the net projection is  $79-15=64$ . If the latter, net projection is  $79-5=74$ . As a final permutation, it is possible to consider adding Venus' 8 minor years because Venus is in an antisiccia relationship with Jupiter within a degree. The addition of Venus' minor years yields 72 and 84 years.

The latter projection is accurate. If discounting the ability of Venus to add years because of antisiccia, then consider at age 74, the year 1969, Sheen resigned as Bishop of Rochester and was appointed Archbishop of the Titular See of Newport. The last 10 years of Sheen's life (from 1969 to 1979) were less active compared to prior years and added no significant chapters to Sheen's life.

Victor of the Chart: Jupiter/Cancer

Porphyrus' Stage I criteria awards 2 points for bound rulership to Mercury, Venus, and Jupiter. The final tally awards Jupiter a score of 5 but several other planets score a 4. As a priest and bishop, there is no question that Jupiter is the victor of Sheen's horoscope. Note the two points for Jupiter's bound rulership are the Sun and the Lot of Spirit.

Manners: Mars-Venus (sign-based); Saturn-Mercury (bound-based).
