

FAQ

Frequently Added Question

Each workbook has two levels of protection

- (1) Password to open each workbook is GALACTIC
- (2) Several of the individual sheets are protected and are in read-only mode. This is to protect copyright from excerpts taken from biographies. These brief excerpts are intended to capture key points and are similar to the type of quotations allowed by copyright law for reviews and academic use. Nevertheless they are intended to provide more biographical detail than what is available from standalone chronologies limited to dates and events.

Over time I will include similar files for the Presidents.

All the other worksheets included in the workbook are provided on an as-is basis only. Some reflect intermediate results and computations which and may be revised in the future.
